[main 2f7d68a] Adding readme.md
Committer: Farhaneh Nazemi <nazemi@DESKTOP-42N8UMF>
Your name and email address were configured automatically based
on your username and hostname. Please check that they are accurate.
You can suppress this message by setting them explicitly:
```

```
git config --global user.name "Your Name"
git config --global user.email you@example.com
```

After doing this, you may fix the identity used for this commit with:

```
git commit --amend --reset-author
```

```
2 files changed, 8 insertions(+), 1 deletion(-)
create mode 100644 K-means/README.md
```

```

README.md

k-means clustering

This is a simple "k-means clustering" project written in Python.

Introduction

The purpose of this project is to clustering a list of point by two metrics : Euclidean and Manhattan.
